REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior arts of record taken individually or in combination fail to teach a method for scheduling tasks providing a system design on an object oriented basis using a computer as defined in claim 4. At best the prior arts, especially Gimenes et al. teaches extracting classes forming the system from a design information, extracting complexity of the classes from the design information, generating the tasks corresponding to the extracted classes and their complexity, storing information of the generated tasks, and scheduling the tasks based on the stored information. The prior arts of record taken individually or in combination fail to teach estimating workload required for implementation the classes based on the complexity information, wherein the estimate workload of the classes using the past workload achievements, and scheduling the tasks based on the result of the estimation and the stored information of the generated tasks. Thus claim 4 is allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
